We will not only learn how to create highly realistic visualizations of architectural projects. You will bring your projects to life by adding layers of interactivity, & understand the capabilities of unreal in deploying your projects to end-user platforms.

**Why study Unreal Engine at VR Division's Academy:**

- Unreal Academic Partner & Unreal Authorized Training Center
- Job-focused Career Training and Job Placement Assistance
- Industry-Relevant Curriculum & Hands-on training
- Access To Resources (Materials, 3D assets, Workflows)
- Networking Opportunities
- Small group classes (max 10 students)

Master Unreal Engine and its powerful tools to create stunning 3D visuals quickly and easily. Learn the latest real-time 3D technique to create beautiful scenes for your professional portfolio to show prospective employers.

### Drive Innovation in Your Field
You will learn the process of planning and building a Minimum Viable Product (MVP) that genuinely resonates with your target audience, we designed this program with architectural design firms, builders, construction companies, and real estate developers in mind. Our ultimate goal is to equip you with the knowledge and tools to leverage Unreal Engine 5, transforming your ideas into tangible, impactful real-time projects.

### Become a Master of Unreal Engine 5 for Architecture
Through this comprehensive training and guided practice, you will evolve into a Real-Time Visualization Expert. with the capability to create immersive, interactive, and real-time architectural projects that are not only visually stunning but highly functional. These real-time visualizations will enable you to win more clients, make more efficient design decisions, and ultimately lead the way in your industry. This course is your stepping stone to becoming a pioneer in architectural visualization.

**Device information**

**Suggestion**
 These courses are not cheap and people with different background may want to try it to make a fortune, so they need to be sure that these content is fit to their need even if they are not expert in the field. So I suggest to mention this at the beginning and other part of website with different words to make sure people get the point.
